EXPERIENCE

SDE 2 | Instahyre | Noida, India | Apr 2026 - Present |

- **AI-powered Job Creation & Recommendation:** Leading Instahyre's flagship 2026 beta release, using AI-generated job intelligence to reduce job creation time by 65% and improve candidate relevancy by 45% through richer job data and stronger matching signals.
- **Existing Job Optimization:** Building AI recommendations that search large candidate datasets in real time to suggest job changes, increase relevant candidate pools by 40%, and improve relevancy by 30%.
- **Engineering Leadership & Mentorship:** Leading 5 developers across feature delivery, blocker resolution, code/design reviews, and technical direction to accelerate execution while improving engineering ownership and team growth.

SDE 1 | Instahyre | Noida, India | Jan 2023 - Apr 2026 |

- **Resolved 1000+ Tickets:** Fixed high-priority P0/P1 bugs and delivered critical features, improving product stability, reliability, and customer experience.
- **Hiring Suite for Consultancies:** Launched a major 2025 release that increased consultant retention by 30%+, enabled job/candidate sharing, and improved hiring speed by 20%.
- **Modularized Scheduling System:** Decoupled event booking and slot scheduling modules, reducing cross-module bugs and simplifying future development.
- **Revamped Slot Booking Module:** Prevented duplicate bookings, improved candidate booking flows, and reduced slot-fetching wait time by 45%.
- **Optimized API Performance:** Reduced key API response times by up to 73%, improving system speed, reliability, and overall user experience.
- **Dynamic Email Templates:** Built on-the-fly template creation, increasing recruiter adoption by 60% and reducing implementation time from 30 hours to 1 hour.

Software Engineer | Relevel by Unacademy | Bengaluru, India | Jul 2022 - Jan 2023 |

- **ZOHO CRM Enhancements:** Automated educator payouts and mass class scheduling, saving 260+ person-hours monthly.
- **Streamlined Course Purchases:** Optimized purchase flow, reducing sales pitching by 55% while maintaining revenue.
- **Class Creation Automation:** Automated course class setup via templates and batch creation, saving 20 person-hours weekly.
- **Course Dashboard Enhancements:** Built real-time attendance, assignment, and metrics tracking with automated reminders, boosting attendance by 30%.

Engineering Intern | Relevel by Unacademy | Bengaluru, India | Feb 2022 - Jul 2022 |

- **Speech-to-Text Integration:** Evaluated and implemented the best provider (Google, AWS, or Mozilla) for production use.
- **Open Source Adaptation:** Customized and deployed promising open-source projects through successful POCs.

SKILLS

Expert in: Python, Django, Java, REST API, Angular JS, Celery

Intermediate in: Spring Boot, JavaScript, JQuery, MySQL, Redis, Microservices

Basic in: Retool, Apache Kafka

ACHEIVEMENTS & CERTIFICATIONS

Kudos Award: Recognised by Instahyre for consistent delivery and exceptional execution quality.

AWS Certified AI Practitioner Early Adopter (2024 - 2027) - AWS - [Link](#)

Relevel Achiever (2022) - Relevel - [Link](#)

EDUCATION

Bachelor of Technology (B.Tech.) - Information Technology | Grade: 9.26 | (Jun 2018 - Jun 2022)

Government College Of Engineering And Textile Technology, Serampore, Hooghly, West Bengal
